UCL Division of Medicine, National Amyloidosis Centre, Royal Free Hospital

**Principal Clinical Physiologist in Echocardiography**

The appointment will be full time on UCL Grade 8. The salary range will be £39,510 - £46,635 per annum, inclusive of London Allowance.

Cardiac involvement is extremely common in amyloidosis ([http://www.ucl.ac.uk/medicine/amyloidosis/nac/](http://www.ucl.ac.uk/medicine/amyloidosis/nac/)), and its diagnosis, assessment and monitoring require expert echocardiography. An experienced Clinical Physiologist is required to provide comprehensive cardiac ultrasound assessments of patients with amyloidosis and related disorders and to provide high quality reports of the findings; the work will be supervised by a Consultant Cardiologist. In addition, they will be responsible for developing the echocardiography service for amyloidosis patients and will contribute to the research activities of the Centre. The post is funded for five years in the first instance.

Suitable candidates will hold accreditation from the British Society of Echocardiography in adult echocardiography or equivalent. They will be proficient in non invasive cardiology and will have gained post qualification experience. Specific experience of amyloidosis is not essential.

For further details about the vacancy and how to apply online please go to [http://www.ucl.ac.uk/hr/jobs/](http://www.ucl.ac.uk/hr/jobs/) and search on Reference Number **1171454**. If you have any queries regarding the vacancy or the application process, please contact Professor Philip Hawkins (Clinical Director), p.hawkins@medsch.ucl.ac.uk, 020 7433 2815.

We particularly welcome applications from black and minority ethnic candidates as they are under-represented within UCL at this level.

**Closing Date: 31st January 2011**
