

Clinical Services
Lead Specialists in
Echocardiography (2 Posts)

Band 7: £29,789 - £39,273

Ref: ES7_09_78

Permanent

An experienced and enthusiastic Echocardiographer, you will work in the hospitals new echo suite using state of the art equipment and digital archiving facilities. Working mainly in performing and reporting adult transthoracic echocardiography, you will take a lead role in the development and provision of specialist areas of the service, depending on knowledge, experience and interests. These could include: contrast echo, sonographer led outpatient clinics, stress echo, paediatric echo or one-stop services. The post is therefore ideal for a self-motivated, experienced Echocardiographer wishing to apply and expand their knowledge and expertise in echocardiography within a specialist role, whilst living and working in one of the country's most desirable environments.

You should hold a BSc in Clinical Physiology or other relevant scientific discipline, although a HNC/HND or equivalent qualification along with suitable knowledge, training and experience may be acceptable. We are looking for full-time candidates with significant experience in clinical echocardiography (e.g. British Society of Echocardiography accreditation), although candidates with less experience or those looking for part-time employment will be considered.

Inverness is a thriving city at the heart of the Scottish Highlands. It offers excellent local facilities, good transport links and a high standard of living in one of the most beautiful parts of the UK.
