

HAREFIELD HOSPITAL

Senior Chief Cardiac Physiologist - Transplant

Band 8a £42,252 - £49,852 pa inc

Royal Brompton & Harefield NHS Foundation Trust is the largest heart and lung centre in the UK and among the largest in Europe. We are a partnership of two specialist hospitals which are known throughout the world for our expertise, standard of care and research success.

Invasive Cardiology at Harefield is leading the country in providing a 24/7 primary angioplasty service to patients in the community and is involved in all other aspects of cardiac investigation and therapy. We provide an on call service to back these investigations up. We also have a comprehensive non-invasive section and a transplant/heart failure section.

You will be an experienced Cardiac Physiologist to lead the transplant/heart failure section of the cardiology department. The post is initially for one year with a strong possibility of it becoming a permanent position.

Applicants should have appropriate experience as a Cardiac Physiologist including involvement in cardio-pulmonary exercise testing, a B.Sc. in Cardiac Clinical Physiology, ILS/ALS, and be RCCP registered. Post qualification accreditation such as HRUK, IBHRE, BSE, would be an advantage.

In return for your hard work we offer a relocation allowance, on site accommodation, subsidised meals and crèche facilities.

**For more information or an informal visit please contact
Julie Rochelle on 01895 828566.**

**Please apply online at www.jobs.nhs.uk quoting ref: 312-HH-CA-2486.
Alternatively, please contact Sian Vincent on 01895 828754 for
an information pack.**
