

HAREFIELD HOSPITAL

Senior Chief Cardiac Physiologist

Band 8a: £42,252 - £49,852 p.a. inc.

The Royal Brompton and Harefield NHS Trust is the UK's largest post graduate specialist heart and lung centre. We are a world leader in the investigation, treatment and research of heart and lung disease. From our two sites - in Chelsea, London and Harefield, Middlesex - we strive to develop our staff both personally and professionally to ensure our patients get the first class service they deserve.

Invasive Cardiology at Harefield is leading the country in providing a 24/7 primary angioplasty service to patients in the community and is involved in all other aspects of cardiac investigation and therapy.

We provide an on-call service to back these investigations up. We also have a comprehensive non-invasive section and a transplant section.

Due to the rapidly expanding nature of the electrophysiology service, we need an experienced and enthusiastic cardiac physiologist to manage technical services in this section of the department, both in our current electrophysiology laboratory and in our imminent, state of the art robotic laboratory.

Applicants should have proven, substantial experience as a cardiac physiologist including experience in electrophysiology, a B.Sc. in cardiac clinical physiology, ILS/ALS, and be RCCP registered. Post qualification accreditation such as HRUK/IBHRE would be an advantage.

For more information or to arrange an informal visit, please contact Julie Rochelle on 01895 828566.

Please apply online at www.jobs.nhs.uk quoting ref: 312-HH-CA-2001. Alternatively, please contact Sian Vincent for more information on 01895 828754.

Closing date: 14 July 2010.
